

# Single Pane Multi-tenant Microsoft 365 Security Management for MSPs

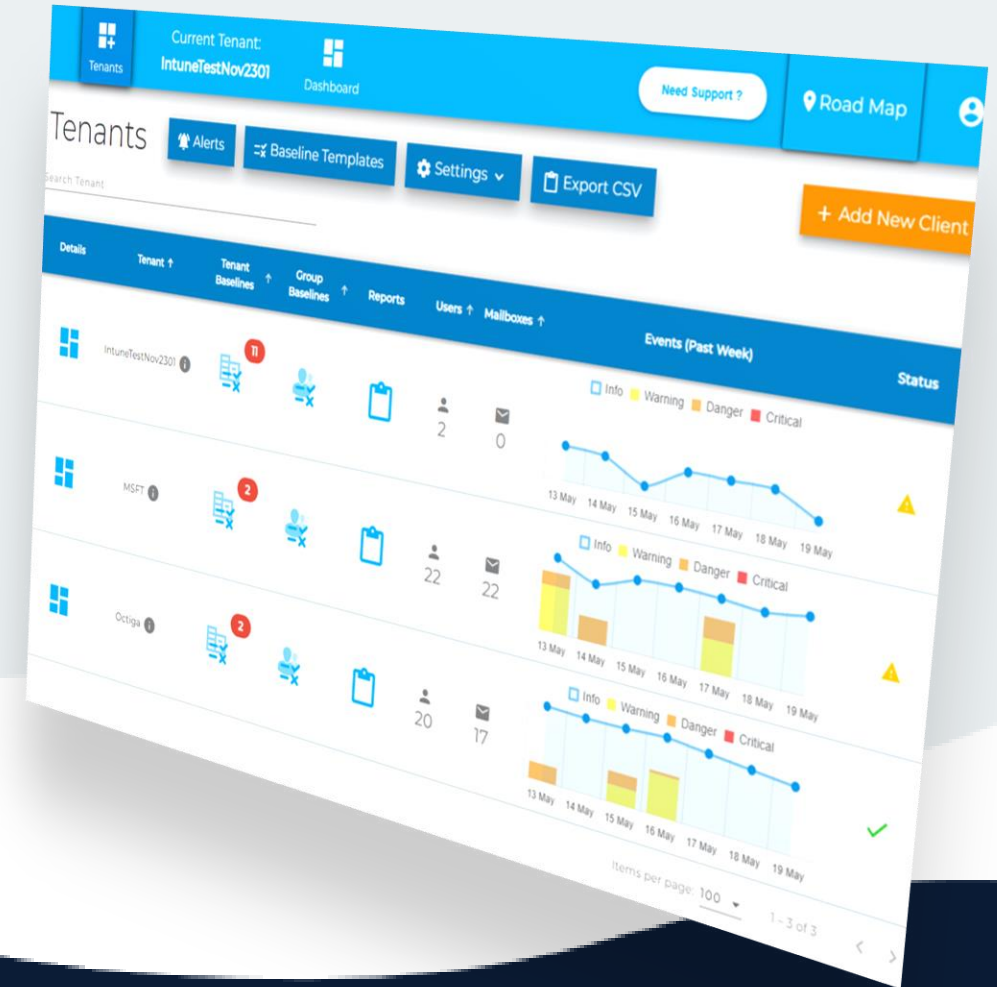

## Key Benefits for MSPs:

- Easy delivery of security best practices.
- Enables the MSP to deliver best practice for their clients.
- Single login, all tenants.
- Glanceable confidence for MSP leaders, L3, L1 engineers.
- Hours saved vs. using Microsoft 365 security tools.
- Instantaneous onboarding and gap analysis; remediation.

## Key Features:

- Best practice baselines.
  - Breach and risk monitoring, single pane view.
  - Rapid and simple user onboard/offboarding.
  - Automated remediation of risks.
  - Geo-aware rules to support travel.
- ...tailored, not standardized to individual tenants.

# Single Pane Multi-tenant Microsoft 365 Security Management for MSPs

## Octiga points of difference.

Comprehensive proactive and reactive capabilities (competitors offer part solutions).

Gives L1s the confidence to deliver 365 security, freeing up scarce L3s for complex tasks.

M365 is tenant by tenant with too many individual settings portals. Octiga bring everything together, multi-tenant.

Michael McNair, Microsoft Engineer, Kirk IT (MSP)

Octiga gives us calm efficiency – we know we're on top of Microsoft 365 security.

Marc Pinto, Orgin IT (MSP)
